2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
<p>Answer:</p> <p>The entity is examining options and alternatives for possible future capital raises.</p>	

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

As noted in answer 8.8.1; due to Covid-19 restrictions, exploration has been temporarily delayed and consequently considerable costs incurred by the entity have also been significantly reduced.

The Directors' are continuing to monitor developments relating to Covid-19 including the implementation of laws and regulations by State and the Federal Government which have impacted ongoing operations and the Company's future financial results. At this stage, the financial impact of Covid-19 on the Company is not able to be estimated.

In addition to the current cash and cash equivalents at 31 March 2020 of \$535K, the entity holds listed securities with a current market value estimated at \$200K and therefore has other options for generating cash.
