CORPORATE GOVERNANCE STATEMENT

This Corporate Governance Statement is current as at 29 March 2021 and has been approved by the Board of the Company.

This Corporate Governance Statement discloses the extent to which the Company has followed the recommendations set by the ASX Corporate Governance Council in its publication Corporate Governance Principles and Recommendations (4th edition) (**Recommendations**). The Recommendations are not mandatory, however the Recommendations that have not been followed for any part of the reporting period have been identified and reasons provided for not following them along with what (if any) alternative governance practices were adopted in lieu of the recommendation during that period.

The Company has adopted a Corporate Governance Pack which provides the written terms of reference for the Company's corporate governance duties. During the reporting period covered by this Corporate Governance Statement, the Company undertook a review of its corporate governance policies and procedures, including in the context of the ASX Corporate Governance Policies and Procedures (4th Edition). As a result of this review, the Company adopted new and amended corporate governance policies and procedures during the reporting period covered by this Corporate Governance Statement.

The Company's corporate governance policies and procedures are available on the Company's website at www.firstau.com/our-company/#governance.

It is noted that the Board does not consider that the Company will gain any benefit from individual Board committees (other than the audit committee) and that its resources would be better utilised in other areas as the Board is of the strong view that at this stage the experience and skill set of the current Board is sufficient to perform these roles. Under the Company's Board Charter, the duties that would ordinarily be assigned to individual committees are currently carried out by the full Board under the written terms of reference for those committees.
