("the Company")

## PROSPECTUS

An offer for the issue of up to an aggregate of 37,500,000 fully paid ordinary shares in the Company (**SPP Shares**) to eligible shareholders at an issue price of 1.2 cents (\$0.012) per SPP Share pursuant to a share purchase plan to raise up to \$450,000 before costs (**SPP Offer**).

The SPP Offer is not underwritten. Any SPP Shares not taken up by eligible shareholders will form part of the shortfall. SPP Shares forming part of the shortfall (if any) may, subject to regulatory requirements, be offered to professional, sophisticated and other exempt investors invited to participate by the Company on the same terms as the SPP Offer.

This Prospectus also contains an offer of up to an aggregate of 18,750,000 options (**New Options**). New Options each have an exercise price of 2 cents (\$0.02), expiry date of 1 July 2023 and which, upon exercise, entitle the holder to one fully paid ordinary share in the Company. New Options are to be issued on the basis of one New Option for every two SPP Shares issued (**Option Offer**).

The issue of New Options is subject to shareholder approval. The SPP Offer is not conditional on the Option Offer proceeding.

The SPP Offer and Option Offer are referred to collectively in this Prospectus as the **Offers**.

### **THIS DOCUMENT IS IMPORTANT AND SHOULD BE READ IN ITS ENTIRETY**

It is important that you read this Prospectus carefully before deciding to accept the SPP Offer described in this Prospectus. If you do not understand its contents you should consult your stockbroker, accountant or other professional adviser.

**The securities offered under this Prospectus are considered speculative**

## IMPORTANT NOTICES

This prospectus (**Prospectus**) is dated 1 November 2021. A copy of this Prospectus was lodged with the Australian Securities & Investments Commission (**ASIC**) on the same date. Neither ASIC nor ASX Limited (**ASX**) nor their respective officers take any responsibility as to the contents of this Prospectus.

Subject to the Corporations Act, the ASX Listing Rules and other applicable laws, the Company reserves the right to close the SPP Offer early, to extend the Closing Date and/or any other dates, or not to proceed with the SPP Offer described in this Prospectus.

**The Offers under this Prospectus close at 7:00pm (Melbourne time) on 22 November 2021, which date may change without notice.**

This Prospectus is for an offer of continuously quoted securities (being the SPP Shares and New Options) and accordingly is not required by the Corporations Act to contain all the information normally required to be set out in a document of this type.

The Prospectus contains and applies to the offer of SPP Shares under the SPP Offer (including any offer of SPP Shares from the shortfall) and the offer of New Options under the Option Offer (including any offer of New Options arising from the issue of SPP Shares from the Shortfall).

This Prospectus incorporates by reference certain information contained in documents lodged with ASIC. A document incorporated by reference in this Prospectus in this manner may be obtained free of charge from the Company during the application period.

The Company has determined the target market for the offer of New Options under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (**TMD**) as set out in the website of the Company ([www.firstau.com](http://www.firstau.com)). By making an application under the Option Offer, an investor warrants they have read and understood the TMD and that they fall within the target market set out in the TMD.

No person is authorised to give any information or make any representation in connection with this Prospectus that is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with the SPP Offer of SPP Shares.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. Persons resident in countries outside Australia and New Zealand should consult their professional advisers as to whether any governmental or other consents are required or whether formalities need to be observed to enable them to acquire securities and observe such restrictions and requirements. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. Payment by BPAY<sup>®1</sup> or EFT or return of a duly completed personalised application form or a Custodian Schedule will be taken by the Company to constitute a representation that there has been no breach of such requirements.

No action has been taken to register or qualify the Offers or the SPP Shares and New Options, or otherwise to permit a public offering of the SPP Shares, in any jurisdiction outside Australia. The SPP Shares and New Options have not been, and will not be, registered under the United States Securities Act of 1933 and should not be offered or sold within the USA.

No account has been taken of particular objectives, financial situation or needs of recipients of this Prospectus. Recipients of this Prospectus should have regard to their own objectives, financial situation and needs. Recipients of this Prospectus should make their own independent investigation and assessment of the Company, its business, assets and liabilities, prospects and profits and losses, and risks associated with investing. Independent expert advice should be sought before any decision is made to apply for SPP Shares and New Options.

Questions concerning the Offers can also be directed to the Company by email to <a href="mailto:rskeen@firstau.com">rskeen@firstau.com</a> .	Section 17

## 1. Details of the Offers

### 1.1 The SPP Offer

First AU Limited [ABN 65 000 332 918] (**FAU or the Company**) offers each Eligible Shareholder (defined below) the opportunity to apply for up to 2,500,00 fully paid ordinary shares (**SPP Shares**) at an issue price of 1.2 cents (\$0.012) per SPP Share (total subscription of \$30,000) pursuant to a share purchase plan (**SPP Offer**).

The SPP Offer is only made to and capable of acceptance by shareholders of the Company with an address in Australia or New Zealand in the register of members of the Company as at the Record Date (**Eligible Shareholders**). The Record Date is 7.00pm on 12 October 2021.

The SPP Offer will raise up to a maximum of \$450,000 before costs, being a maximum of 37,500,000 SPP Shares at the issue price of 1.2 cents (\$0.012) per SPP Share. Every two SPP Shares are proposed to be accompanied by one New Option under the Option Offer. The issue of New Options is conditional. Refer to section 1.8.

The SPP Offer closes on 22 November 2021 at 7:00pm (Melbourne time) (unless closed earlier or extended). The SPP Offer and the issue of SPP Shares is not conditional.

The SPP Offer is being made in compliance with ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (**ASIC Instrument**). The Company has chosen to use this Prospectus for the SPP Offer in lieu of a share purchase plan offer booklet to streamline the application process and allow Eligible Shareholders to apply for SPP Shares and New Options under the same offer document.

### 1.2 No Entitlement Trading

Entitlements to apply for and receive SPP Shares pursuant to the SPP Offer are not renounceable and, accordingly, there is no ability to trade rights on ASX or elsewhere.

### 1.3 Minimum subscription

There is no aggregate minimum subscription amount for the SPP Offer to proceed.

Eligible Shareholders will only be able to apply for and receive SPP Shares in accordance with sections 1.5 and 6. The minimum parcel under the SPP Offer is \$2,000 (166,667 SPP Shares) as set out in section 1.5.

### 1.4 Maximum subscription

The maximum amount that may be raised under the SPP Offer is \$450,000 before costs, being a maximum of 37,500,000 SPP Shares at the issue price of 1.2 cents (\$0.012) per SPP Share. If subscriptions under the SPP Offer exceed \$450,000 in aggregate, the Company will scale back applicants in accordance with section 1.9.

Each Eligible Shareholder may only apply for up to \$30,000 of SPP Shares (2,500,000 SPP Shares).

Joint holders are counted as a single shareholder for the purposes of determining Entitlements. A joint holder who receives more than one personalised application form under the SPP Offer due to multiple registered holdings (including both sole and joint holdings) may only apply for up to \$30,000 of shares in total.

Where a trustee, custodian or nominee is a registered holder of shares and is expressly noted on the share register as holding shares on account of another person (**Beneficiary**), the Beneficiary will be taken to be the registered holder of those shares. In this instance, an application for, or an issue of SPP Shares to the trustee, custodian or nominee, will be taken to be an application or an issue to the Beneficiary. Details of how a trustee, custodian or nominee may apply for SPP Shares on behalf of their underlying beneficiary are provided for in section 6.

### 1.5 **Applications for parcels of SPP Shares**

Eligible Shareholders may apply to receive their full Entitlement of shares under the SPP Offer. Alternatively, an Eligible Shareholder may apply for a parcel of SPP Shares that is less than their full Entitlement.

The parcels of SPP Shares available under the SPP Offer are set out below:

\$	Number of SPP Shares
\$2,000	166,666
\$5,000	416,666
\$7,500	625,000
\$10,000	833,333
\$15,000	1,250,000
\$20,000	1,666,666
\$25,000	2,083,333
\$30,000	2,500,000

Eligible Shareholders that choose to take up any of their Entitlement under the SPP Offer will need to pay the required amount by BPAY® or EFT in accordance with the instructions in, and using the personalised payment details in, the personalised application form which accompanied a copy of this Prospectus.

An application for a parcel of SPP Shares will be treated as an application to also be issued the number of New Options that corresponds to that parcel of SPP Shares on the basis of one New Option for every two SPP Shares.

### 1.6 **No Underwriting**

The SPP Offer is not underwritten.

### 1.7 **Non-eligible Foreign Shareholders**

Only Eligible Shareholders, being those shareholders with addresses in Australia or New Zealand in the register of members of the Company as at the Record Date, are eligible to participate in the SPP Offer.

The Company has decided that it is unreasonable to make the SPP Offer outside Australia and New Zealand having regard to the:

- number of holders in places where the SPP Offer would be made;
- number and value of securities those holders would be offered; and
- cost of complying with the legal and regulatory requirements of regulatory authorities in those jurisdictions.

The Company will notify each of the non-qualifying foreign shareholders of the SPP Offer and advise them that the SPP Offer will not be made to them. At the Record Date a total of 22,209,483 shares (approximately 2.89% of existing issued shares) are held by 261 non-qualifying foreign shareholders in 12 different countries.

The equivalent entitlements of non-qualifying foreign shareholders will form part of the shortfall, further details of which are set out in section 1.12.

## 1.8 **Option Offer**

The Option Offer is an offer of one free-attaching option (**New Option**) (each with an exercise price of 2 cents (\$0.02), expiry date of 1 July 2023 and which, upon exercise, entitle the holder to one share in the Company) for every two SPP Shares subscribed for under the SPP Offer. New Options have the same terms, and will upon issue rank equally with, the existing quoted FAUOA options of the Company.

The full terms of the New Options are set out in Section 9.2.

The issue of New Options is subject to shareholder approval which will be sought at a general meeting of shareholders convened by the Company to be held on 1 December 2021. If shareholder approval for the issue of the New Options is not obtained then no New Options will be issued.

It is expressly noted by the Company that the SPP Offer and the issue of SPP Shares is not conditional upon receipt of shareholder approval for the issue of New Options under the Option Offer.

The number of New Options that may be issued in respect of each parcel of SPP Shares is set out below:

\$	Number of SPP Shares	Number of New Options
\$2,000	166,666	83,333
\$5,000	416,666	208,333
\$7,500	625,000	312,500
\$10,000	833,333	416,666
\$15,000	1,250,000	625,000
\$20,000	1,666,666	833,333
\$25,000	2,083,333	1,041,666
\$30,000	2,500,000	1,250,000

## 1.9 **ASX Listing**

### *SPP Shares*

The Company will apply to ASX for admission of the SPP Shares to official quotation within 7 days of the date of this Prospectus. The fact that ASX may grant official quotation of the SPP Shares is not to be taken in any way as an indication of the merits of the Company or those securities.

If ASX does not grant permission for the Official Quotation of SPP Shares within 3 months after the date of issue of this Prospectus (or such period as is permitted by the Corporations Act), the Company, in its absolute discretion, will either repay the application monies to applicants without interest or (subject to any necessary ASIC or ASX waivers or consents being obtained) issue a supplementary or replacement Prospectus and allow applicants one month to withdraw their application and be repaid their application monies without interest.

### *New Options*

As noted above, New Options have the same terms as, and upon issue will rank equally with, the existing quoted FAUOA options of the Company. Accordingly, the Company will apply to ASX for admission of the New Options to official quotation within 7 days of the date of this Prospectus. The fact that ASX may grant official quotation of the New Options is not to be taken in any way as an indication of the merits of the Company or those securities.

If ASX does not grant permission for the Official Quotation of New Options within 3 months after the date of issue of this Prospectus (or such period as is permitted by the Corporations Act), the Company, in its absolute discretion,

will (subject to any necessary ASIC or ASX waivers or consents being obtained) issue a supplementary or replacement Prospectus and allow applicants one month to withdraw their application and be repaid their application monies without interest.

#### 1.10 **Scale Back**

The SPP Offer will raise a maximum of \$450,000 before costs (37,500,000 SPP Shares at the issue price of 1.2 cents (\$0.012)). If applications are received from Eligible Shareholders under the SPP Offer for more than \$450,000 in aggregate, the Company will scale back applications under the SPP Offer on a pro rata basis based on the size of the shareholding of each applicant under the SPP Offer as at the Record Date.

The Company will refund applicants (without interest) the difference between the application monies received by the Company and the application monies payable for the number of SPP Shares actually issued to the applicant.

No applications for shares above the maximum subscription of 2,500,000 SPP Shares, representing a subscription sum of \$30,000, will be accepted from any Eligible Shareholder. However, Eligible Shareholders who accept the maximum subscription of \$30,000 and are professional, sophisticated and other exempt investors may indicate to the Company that they are interested in participating in a placement (if any) the shortfall – see Section 1.12 for further details.

In addition, the Company will not issue SPP Shares if such issue would result in the relevant interest of a shareholder (and its associates) exceeding 20% of the issued capital of the Company unless doing so is permitted under the Corporations Act without requiring any further action by the Company or shareholder.

Assuming shareholder approval is obtained and the Option Offer proceeds, the number of New Options issued will reflect one New Option for every two SPP Shares issued to an applicant following any scale back.

#### 1.11 **Issue of securities after Closing Date**

The Board reserves the right to issue SPP Shares and/or New Options in response to valid applications received from Eligible Shareholders after the Closing Date.

#### 1.12 **Shortfall**

Any part of your Entitlement to SPP Shares under this Prospectus not taken up will form part of the shortfall.

The Company may, subject to regulatory requirements, seek to place the shortfall of SPP Shares with professional, sophisticated and other exempt investors invited to participate by the Company in its discretion (**the Shortfall**). SPP Shares issued from the shortfall will have identical terms and rights as those issued to Eligible Shareholders pursuant to the SPP Offer.

The Company may engage third parties to assist with the placement of SPP Shares under the Shortfall. A fee may be payable by the Company in connection with such engagement of third parties.

In addition, the Company will not issue SPP Shares under the Shortfall if that would result in the relevant interest of an investor (and its associates) exceeding 20% of the issued capital of the Company.

Assuming shareholder approval is obtained and the Option Offer proceeds, every two SPP Shares under the Shortfall will also be accompanied by one free-attaching New Option.

#### 1.13 **Placement**

*Note: due to rounding, the number of Placement Shares (2 different) actually issued, and Placement Options proposed to be issued (1 different), were slightly different from those initially announced on 13 October 2021. The number of securities issued, or proposed to be issued, is reflected below.*

On 13 October 2021, the Company announced that it had received firm commitments for a share placement of 153,657,186 fully paid ordinary shares (**Placement Shares**) at an issue price of 1.2 cents (\$0.012) per Placement

Share to raise approximately \$1.84 million before costs (**Placement**). The Placement Shares were issued on 19 October 2021 and an Appendix 2A and cleansing notice were released on 20 October 2021.

Funds raised under the Placement will be used to fast-track exploration activities, particularly in the priority projects of the Company in East Gippsland, Victoria and also the Mabel Creek Project, South Australia. In particular, funds raised are proposed to be applied towards:

- A diamond drilling and exploration program targeting extensions of historical high-grade workings at the Ernestine Prospect.
- Diamond drilling program at Dogwood (East Gippsland, Victoria).
- Initial exploration for IOCG potential at Mabel Creek: gravity survey, soil sampling, drill target generation.
- General working capital requirements, including costs of the Placement and SPP Offer.

Every two Placement Shares were proposed to be accompanied by one free-attaching option (**Placement Option**) with the same terms as the New Options (aggregate of 76,828,593 Placement Options).

EverBlu Capital Pty Ltd (**EverBlu**) acted as lead manager of the Placement. The Company agreed to pay EverBlu 6% of funds raised by EverBlu (being \$60,000) plus GST and to issue EverBlu and/or its nominee(s) 35,000,000 options (**Broker Options**) with the same terms as the New Options.

The issue of the Placement Options and the Broker Options are subject to shareholder approval, which will be sought at the same general meeting of shareholders at which the Company will seek shareholder approval for the issue of the New Options, which has been convened to be held on 1 December 2021.

The Placement Options and Broker Options are not offered under this Prospectus.

## **2. Purpose of the Offers**

### *SPP Offer*

The purpose of the SPP Offer is to raise up to \$450,000 before costs. Details of the use of funds raised under the SPP Offer are set out in Section 3.

Funds raised under the SPP Offer will fast-track exploration activities, particularly in the priority projects of the Company in East Gippsland, Victoria and also the Mabel Creek Project, South Australia. In particular, funds raised are proposed to be applied towards:

- A diamond drilling and exploration program targeting extensions of historical high-grade workings at the Ernestine Prospect.
- Diamond drilling program at Dogwood (East Gippsland, Victoria).
- Initial exploration for IOCG potential at Mabel Creek: gravity survey, soil sampling, drill target generation.
- General working capital requirements, including costs of the Placement and SPP Offer.

### *Option Offer*

The purpose of the Option Offer is to allow participants in the SPP Offer to apply for New Options as free-attaching to SPP Shares under the same offer document. The Option Offer has the ancillary purpose of qualifying New Options, and shares issued on exercise of New Options (if any), for secondary trading.

### 3. Financial effect of the Offers

As noted above, up to \$450,000 before costs is proposed to be raised under the SPP Offer.

Funds raised under the SPP Offer will fast-track exploration activities, particularly in the priority projects of the Company in East Gippsland, Victoria and also the Mabel Creek Project, South Australia. In particular, funds raised are proposed to be applied towards:

- A diamond drilling and exploration program targeting extensions of historical high-grade workings at the Ernestine Prospect.
- Diamond drilling program at Dogwood (East Gippsland, Victoria).
- Initial exploration for IOCG potential at Mabel Creek: gravity survey, soil sampling, drill target generation.
- General working capital requirements, including costs of the Placement and SPP Offer.

The Option Offer will have a negligible effect on the financial position of the Company.

The anticipated costs of the Offers in combination are set out in the table below:

Particulars	Amount (\$)
Legal, printing and postage	\$28,000
ASIC and ASX Fees *	\$7,500
<b>TOTAL +</b>	<b>\$35,500</b>

*\*Assumes the issue of the maximum number of SPP Shares and New Options are quoted on ASX. ASX fees will be marginally lower of the SPP Offer is not fully subscribed.*

*+ In addition to those amounts set out in the table above, the Company may pay a fee to third parties who assist the Company with placing the Shortfall. Further details are set out in section 1.6.*

If the SPP Offer is fully subscribed then the cash reserves of the Company are anticipated to increase by approximately \$414,500, being \$450,000 less the anticipated costs of the Offers noted above. The Company notes that the costs of the Offers may be met from existing funds, including funds raised under the Placement.

Cash reserves of the Company will be increased by a lower amount if the SPP Offer is not fully subscribed. The Offers are not anticipated to have a financial effect on the Company other than as set out in this section 3.

As at 27 October 2021, the Company has cash on hand of approximately \$3.04 million. Funds raised under the SPP Offer will increase the cash reserves of the Company as set out above. The Company did not have any creditors as at 27 October 2021. There was no material change to the cash on hand and creditor positions between 27 October 2021 and the date of this Prospectus

### 4. Effect on the Capital Structure of the Company

#### 4.1 Shares and Convertible Securities

##### *Capital Structure*

The tables below set out the existing capital structure of the Company and the effect on the Company's capital structure of the SPP Offer if fully subscribed. These tables assume that no existing options, performance rights or convertible notes are exercised or converted into fully paid ordinary shares.

## SHARES

The below table shows the impact on the share capital of the Placement and SPP Offer (assuming the SPP Offer is fully subscribed). The below table does not take into account the impact of the issue of shares on conversion of convertible securities.

Ordinary shares prior to the Placement	614,628,754	76.28%
Placement Shares	153,657,186	19.07%
Maximum SPP Shares under the SPP Offer	37,500,000	4.65%
<b>Total (if SPP fully subscribed)</b>	<b>805,785,940</b>	<b>100%</b>

## CONVERTIBLE SECURITIES

The below table shows the impact on the convertible securities of the Company of the Option Offer and the issue of Placement Options and Broker Options. For the purposes of the below table, it is assumed that:

- Shareholders approve the issue of the New Options, Placement Options and Broker Options.
- The SPP Offer is fully subscribed and therefore the maximum number of New Options are issued.
- Quotation is granted in respect of the New Options, Placement Options and Broker Options.

#### 4.2 Dilution and control

The potential effect of the issue of SPP Shares under the SPP Offer will have on the control of the Company is as follows:

- The impact on Eligible Shareholders who take up their Entitlement pursuant to the SPP Offer (whether in part or in full) is dependent upon the current shareholding in the Company of that Eligible Shareholder, the quantum of the Eligible Shareholders investment under the SPP Offer and the extent to which the SPP Offer is subscribed;
- An Eligible Shareholder who does not take up any part of their Entitlement pursuant to the SPP Offer will have their percentage shareholding in the Company diluted as a result of the SPP Offer. The extent of the dilution is dependent on the extent to which the SPP Offer is subscribed; and
- Shareholders who are not Eligible Shareholders will be diluted as a result of the SPP Offer. The extent of the dilution is dependent on the extent to which the SPP Offer is subscribed.

The below tables show the example impact of the SPP Offer on Eligible Shareholders who either do not subscribe for SPP Shares or who take up their full Entitlement under the SPP Offer when the SPP Offer is either 50% subscribed (18,750,000 SPP Shares issued) or fully subscribed (37,500,000 SPP Shares issued) (respectively). The table does not include the effect of the Placement and issue of Interest Shares.

**Notes to Tables:**

- All percentages are rounded to two decimal places.
- It is assumed the notional Eligible Shareholders in the example above do not acquire or dispose of shares other than as contemplated above.
- Assumes the entitlement not taken up by example shareholder is placed from the shortfall.
- Does not taken into account the dilutive impact of the conversion of convertible securities, including the exercise of any New Options under the Option Offer.

**5. Risks**

The securities offered under this Prospectus are considered highly speculative. An investment in the Company carries risk. The Directors strongly recommend potential investors consider the risk factors described below, together with information contained elsewhere in the Prospectus.

This section identifies circumstances the Directors regard as risks associated with investment in the Company and which may have a material adverse impact on the financial performance of the Company, if they were to arise.

Specifically:

- the SPP Shares and New Options are subject to specific risks (refer to section 5.1);
- the business and operations of the Company are subject to specific risk factors that could potentially influence the performance of the Company in the future (refer section 5.2);
- there are general investment and market risks (refer section 5.3).

Where possible, the Directors aims to manage these risks by carefully planning the Company's activities and implementing risk control measures. However, some of the risks identified are highly unpredictable or are out of the control of the Company and the Company is therefore limited to the extent it can effectively manage them.

These risk factors are not intended to be an exhaustive list of risks to which the Company is, or will be, exposed.

**5.1 Risks associated with the Offers**

*(a) Value of securities and share market conditions*

The market price of the Company's securities are subject to varied and unpredictable influences on the market for equities in general and with respect to resources stocks in particular. Market conditions and lack of liquidity may affect the value of the Company's securities regardless of the performance of the Company.

In particular, the extent of the effects of the COVID-19 pandemic at this stage is uncertain and evolving. The COVID-19 pandemic is having, and is expected to continue to have, an influence on the volatility of equity markets generally and may continue to impact and influence the market price of the Company's securities.

The trading price of both the SPP Shares and New Options (if admitted to official quotation on ASX), and shares (including the underlying shares issued upon exercise of New Options (if any)), may fall as well as rise.

*(b) Taxation consequences*

The issue of SPP Shares, and the exercise or sale of New Options, may have taxation consequences depending on the particular circumstances of the recipient. You should seek your own professional advice before investing in the Company.

*(c) Dilution*

The issue of SPP Shares will result in holders who do not take up their Entitlement under the SPP Offer being diluted. Any such dilution may be material. The number of SPP Shares to be subscribed for by an Eligible Shareholder to not have their holding diluted in the Company is dependent upon the current shareholding of the Eligible Shareholder and the total number of SPP Shares issued.

The issue of New Options will not dilute shareholders until shares (if any) are issued on exercise of New Options. The exercise of New Options into shares will result in the dilution of shareholders who either do not hold, or do not exercise, New Options.

*(d) Liquidity*

No assurance is given that there will be, or continue to be, an active market for the quoted securities of the Company, which will include the SPP Shares and New Options.

*(a) Exercise price of New Options*

There is no guarantee that the share price will be greater than the exercise price of New Options (2 cents (\$0.02)) up to the expiry date of New Options (1 July 2023). Accordingly, there is a risk that New Options will be out of the money during the exercise period, which will affect the value of the New Options.

## **5.2 Business Risks**

*(a) Exploration and Evaluation Risks*

The tenements in which the Company holds interests are at various stages of exploration. Potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that exploration of the tenements, or any other tenements that may be acquired by the Company in the future, will result in the discovery of an economic mineral deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of the Company may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to and interests in the tenements and obtaining all required approvals for its activities. In the event that exploration programs prove to be unsuccessful, this could lead to a diminution in the value of the tenements, a reduction in the mineral reserves of the Company and possible relinquishment of the tenements.

The estimated exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to continued success and support for the strategy and significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

*(b) Development risks and costs - general*

Possible future development of mining operations at any of the Company's projects is dependent on a number of factors and avoiding various risks, including, but not limited to, failure to acquire and/or delineate economically recoverable mineral bodies, unfavourable geological conditions, failing to receive the necessary approvals from all relevant authorities and parties, unseasonal weather patterns, excessive seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, variations in the price of the mineral product, risk of access to the required level of funding and contracting risk from third parties providing essential services.

In addition, the construction of any proposed development may exceed the expected timeframe or cost for a variety of reasons out of the Company's control. Any delays to project development could adversely affect the Company's operations and financial results and may require the Company to raise further funds to complete the project development and commence operations.

*(c) Operating risks*

The Company may be subject to the risks involved in the establishment of a new mining operation if the Company decides to develop its mineral assets. There is no assurance that can be given as to the level of viability that the Company's operations may achieve. Unless and until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.

Lower than expected productivity and technical difficulties and late delivery of materials and equipment could have an adverse impact on any future construction and commissioning schedules. No assurance can be given that the intended production schedules will be met or that the estimated operating cash costs and development costs will be accurate.

Further, the operations of the Company (if production commences) may have to be shut down or may otherwise be disrupted by a variety of risks and hazards which are beyond the control of the Company, including environmental hazards, industrial accidents, technical failures, labour disputes, weather conditions, fire, explosions and other accidents at the mine, processing plant or related facilities beyond the control of the Company. The occurrence of any of the risks and hazards could also result in damage to, or destruction of, amongst other things, production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability. The Company intends to apply for insurance within ranges of coverage consistent with industry practice, and no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all, or that any coverage it obtains will be adequate and available to cover any such claims).

*(d) Environmental Risks and Regulations*

The operations and proposed activities of the Company are subject to Western Australian, Victorian, South Australian and Federal environmental laws and regulations. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. The Company attempts to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Government authorities may, from time to time, review the environmental bonds that are placed on permits. The Directors are not in a position to state whether a review is imminent or whether the outcome of such a review would be detrimental to the funding needs of the Company.

Further, the Company may require approval from the relevant authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations, which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business, financial condition and results of operations.

*(e) Licences, permits and payment obligations*

The Company's mining exploration activities are dependent upon the grant, or as the case may be, the maintenance of appropriate licences, concessions, leases, permits and regulatory consents which may be withdrawn or made subject to limitations. The Company cannot guarantee that those mining tenements that are applications will ultimately be granted (in whole or in part). The maintaining of tenements, obtaining renewals, or getting tenements granted, often depends on the Company being successful in obtaining the required statutory approvals for its proposed activities and that the licences, concessions, leases, permits or consents it holds will be renewed as and when required.

The Company is not aware of any reason why these tenements would not be renewed in the ordinary course but cannot give assurance that such renewals will be given and there is no assurance that new conditions will not be imposed in connection therewith.

Pursuant to the licences comprising the Company's projects, the Company is subject to payments and other obligations. In particular, licence holders are required to expend the funds necessary to meet the minimum work commitments attaching to the tenements. Failure to meet these work commitments may render the licence subject to forfeiture or result in the holders being liable for fees. Further, if any contractual obligations are not complied with when due, in addition to any other remedies that may be available to other parties, this could result in dilution or forfeiture of the Company's interest in its projects.

*(f) No Production Revenues*

The Company is not generating any revenues as at the date of this Prospectus. There can be no assurance that significant losses will not occur in the near future or that the Company will be profitable in the future. The Company's operating expenses and capital expenditures may increase in subsequent years as additional consultants, personnel and equipment associated with advancing exploration, development and commercial production of the Company's projects are added. The amounts and timing of expenditures will depend on the progress of ongoing exploration and development, the results of consultants' analyses and recommendations, the rate at which are beyond the Company's control.

The Company expects to continue to incur losses unless and until such time as its projects enter into commercial production and generates sufficient revenues to fund its continuing operations. The development of the Company's projects will require the commitment of substantial resources to conduct the time-consuming exploration and development activities. There can be no assurance that the Company will generate any revenues or achieve profitability. There can be no assurance that the underlying assumed levels of expenses will prove to be accurate.

*(g) Future capital requirements*

The Company's activities will require substantial expenditure. There can be no guarantees that the funds raised through the Rights Issue will be sufficient to successfully achieve all the objectives of the Company's overall business strategy. If the Company is unable to use debt or equity to fund development after the substantial exhaustion of the net proceeds of the Rights Issue, there can be no assurances that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional resources on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to Shareholders and any debt financing (if available) may involve restrictive covenants, which may limit the Company's operations and business strategy.

The Company's failure to raise capital, if and when needed, could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

*(h) Potential Acquisitions*

As part of its business strategy, the Company may make acquisitions of, or significant investments in, other resource projects. Any such future transactions would be accompanied by the risks commonly encountered in making acquisitions of resource projects.

*(i) Native Title and Aboriginal Heritage Risks*

The existence of native title and/or native title claims in relation to the land the subject of the tenements may affect the Company's ability to obtain the grant of future tenure over the Tenements or in their vicinity. If the tenements have not been validly granted in compliance with native title legislation, this may have an adverse impact on the Company's activities.

There is a risk that Aboriginal sites and objects may exist on the land the subject of the tenements the existence of which may preclude or limit mining activities in certain areas of the tenements.

Heritage survey work may need to be undertaken ahead of the commencement of exploration or mining operations to reduce the risk of contravening Aboriginal heritage legislation.

The Directors will closely monitor the potential effect of native title claims involving tenements in which the Company has, or may have, an interest.

*(j) Access and third-party risks*

Under State and Commonwealth legislation, the Company may be required to obtain the consent of, and pay compensation to, the holders of third party interests which overlay areas within the tenements or future tenements granted to the Company, including native title claims and pastoral leases, prior to accessing or commencing any exploration or mining activities on the affected areas within the tenements or future tenements.

Whilst the requirement to seek and obtain such consents and pay such compensation is customary, any delay in obtaining these consents may impact on the Company's ability to carry out exploration activities within the affected areas or future tenements granted to the Company.

The tenements are in areas that have been the subject of exploration activities as well as pastoral and agricultural activities. Given the history of the areas, the Directors believe that third party risk to access the tenements is low. As part of the process of submitting a program of works for any ground disturbing activities, pastoralists will be notified and the Company will work to minimise disturbance in relation to the proposed activities in accordance with applicable law. The Directors however acknowledge that delays may be caused to the commencement of exploration programs.

The activities contemplated by the Company under all of the work programs for the tenements are in and around areas historically disturbed by past exploration activities. Given that the exploration activities contemplated by the Company are proximate to, or otherwise in areas that have already been actively explored, the Directors consider the risk of any impediments with respect to Native Title, pastoralist activities and any other heritage restrictions to be low. However, the Company acknowledges that exploration success may result in extended work programs that may require further consent with respect to the Native Title process, existing heritage agreements and pastoralist activities as noted above.

*(k) Reliance on Key Personnel*

The Company's future depends, in part, on its ability to attract and retain key personnel. It may not be able to hire and retain such personnel at compensation levels consistent with its existing compensation and salary structure. Its future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, the inability to continue to attract appropriately qualified personnel could have a material adverse effect on the Company's business.

*(l) Joint Venture Parties, Agents and Contractors*

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Company is or may become a party, or the insolvency or managerial failure by any of the contractors used by the Company, in any of its activities or the insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

As at the date of this Prospectus, a joint venture in respect of certain tenements held by the Company in Western Australia is proposed and remains subject to certain conditions. In addition to the general risks above, there is a risk that the joint venture referred to above may not be approved or may not proceed.

*(m) Insurance and Uninsured Risks*

The Company, where economically feasible, may insure its operations in accordance with industry practice. However, even if insurance is taken out, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered, or fully covered, by insurance could have a material adverse effect on the business, financial condition and results of the Company. Insurance of all risks associated with mineral exploration and production is not always available and, where available, the costs can be prohibitive.

*(n) Regulatory risks*

The Company will incur ongoing costs and obligations associated with compliance with necessary regulations. Regulatory areas which are of particular significance to the Company include environmental compliance and rehabilitation, mining, taxation, employee relations, worker health and safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species and other matters. The Company requires permits from regulatory authorities to authorise the Company's operations. These permits relate to exploration, development, production and rehabilitation activities. Any failure to comply with regulations may result in additional costs for corrective measures, penalties or in restrictions on the Company's proposed business operations. In addition, changes in regulations could require extensive changes to the Company's operations, increased compliance costs or give rise to liabilities, which could have a material adverse effect on the business, results of operations and financial condition of the Company.

*(o) Commodity Price and Exchange Rate Risks*

To the extent the Company is involved in mineral production the revenue derived through the sale of commodities may expose the potential income of the Company to commodity price and exchange rate risks. The prices of gold, copper and other minerals fluctuate widely and are affected by numerous factors beyond the control of the Company, such as industrial and retail supply and demand, exchange rates, inflation rates,

changes in global economies, confidence in the global monetary system, forward sales of metals by producers and speculators as well as other global or regional political, social or economic events. Future serious price declines in the market values of gold and copper could cause the development of, and eventually the commercial production from, the Company's projects and the Company's other properties to be rendered uneconomic. Depending on the prices of commodities, the Company could be forced to discontinue production or development and may lose its interest in, or may be forced to sell, some of its properties. There is no assurance that, even as commercial quantities of gold and copper are produced, a profitable market will exist for it.

Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.

In addition to adversely affecting any reserve estimates of the Company and its financial condition, declining commodity prices can impact operations by requiring a reassessment of the feasibility of a particular project. Such a reassessment may be the result of a management decision or may be required under financing arrangements related to a particular project. Even if a project is ultimately determined to be economically viable, the need to conduct such a reassessment may cause substantial delays or may interrupt operations until the reassessment can be completed.

*(p) Risk of adverse publicity*

The Company's activities involve mineral exploration and mining and regulatory approval of its activities may generate public controversy. Political and social pressures and adverse publicity could lead to delays in approval of, and increased expenses for, the Company's activities. The nature of the Company's business attracts a high level of public and media interest and, in the event of any resultant adverse publicity, the Company's reputation may be harmed.

*(q) Competition risk*

The industry in which the Company is involved is subject to domestic and global competition, including major mineral exploration and production companies. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

Some of the Company's competitors have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. Many of the Company's competitors not only explore for and produce minerals, but also carry out refining operations and other products on a worldwide basis. There can be no assurance that the Company can compete effectively with these companies.

### **5.3 General Risks**

*(a) COVID-19*

The outbreak of COVID-19 is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains uncertain. The Company's share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 (both in Australia and in other jurisdiction in which the Company may in the future operate) may adversely impact the operations of the Company and are likely to be beyond the control of the Company. Additional, as noted above, COVID-19 may adversely affect the sales cycles and decision making processes of key target customers of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continuing to evolve and the consequences are uncertain. In compliance with its continuous disclosure obligations, the Company will provide updates to the market as and when COVID-19 has a material impact on the Company and its business and finances.

*(b) Economic Risks*

General economic conditions, movements in interest and inflation rates and currency exchange rates may adversely affect the Company's activities, as well as its ability to fund those activities. Further, share market conditions may affect the value of the Company's securities regardless of the Company's operating performance. Share market conditions are affected by many factors as:

- general economic outlook;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital;
- global health and safety (including the COVID-19 pandemic); and
- terrorism or other hostilities.

*(c) Regulatory Risks*

Changes in government, financial policy, taxation and other laws in any local and/or international markets or regions cannot be predicted and may affect the Company's ability to carry on its proposed activities, restrict the Company in achieving its objectives or may result in increased compliance costs or complexities in managing the Company's proposed operations and activities.

The Company is also subject to various regulatory requirements, including technology and accounting requirements. Changes to standards, policies, guidelines, interpretations or principles may affect the Company's ability to carry out its activities and/or achieve its objectives. The Company cannot control or predict changes to regulatory requirements, which may adversely affect the Company.

The responses of governmental and regulatory entities to the COVID-19 pandemic is constantly evolving as further information becomes available. These responses may impact the Company in a detrimental way.

*(d) Litigation Risks*

The Company is exposed to possible litigation risks including contractual disputes, disputes arising from the sale or disposal of Company assets, shareholder actions, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.

*(e) Unforeseen risks*

There may be other risks which the Directors and/or management of the Company are unaware of at the time of issuing this Prospectus which may impact upon the Company, its operations and/or the value and performance of the securities of the Company.

*(f) Inability to pay dividends or make other distributions*

The Company has never declared or paid dividends on its share capital, and the Company does not expect to do so in the short to medium term. There is no guarantee that dividends will be paid on shares in the future. Any distribution is a matter to be determined by the Board in its discretion having regard to the financial performance and position of the Company and applicable laws.

#### **5.4 Investment Speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or in connection with an investment in the Company. The above risk factors, and other risk factors not specifically referred to above, may materially affect the future financial performance of the Company and the value of the securities offered under this Prospectus.

SPP Shares, New Options and shares issued on conversion of New Options carry no guarantee with respect to the payment of dividends, returns of capital or market value. The Company does not expect to declare any dividends for the foreseeable future.

Potential investors should consider that the investment in the Company is highly speculative.

### **6. Acceptance Instructions**

#### **6.1 Choices available under SPP Offer**

Eligible Shareholders may:

- exercise their rights to participate in the SPP Offer and accept in full (i.e. for the subscription sum of \$30,000); or
- exercise their rights to participate in the SPP Offer and accept in part by applying for a parcel of SPP Shares for an amount and number of shares as set out in the personalised application form; or
- take no action under this offer, and allow the offer made to them to lapse.

Depending on the level of applications received, applications may be scaled back or SPP Shares not accepted under the SPP Offer will become part of the shortfall.

#### **6.2 Applying for SPP Shares**

To apply for SPP Shares under the SPP Offer, unless you are a **Custodian** (within the meaning of the ASIC Instrument) (see further below), please make your payment via BPAY® or by EFT for one of the designated subscription amounts set out in the personalised application form using the applicable reference number set out in the personalised application form which accompanies this Prospectus. Applications can only be made using the personalised application form which formed part of or was accompanied by a copy of this Prospectus.

There is no requirement to return the personalised application form if you are paying by BPAY® or EFT.

You can only make a payment by BPAY® if you are the holder of an account with an Australian financial institution.

EFT payments from banks in New Zealand must allow for exchange rates and bank fees so that the Registrar receives correct amount in Australian dollars. If less than the required amount is received, your application may be rejected or you may receive fewer SPP Shares than you wished to apply for.

If applying and paying by BPAY® or EFT, you need to ensure your payment of application monies is received in the Share Registrar's specified bank account in clear and immediately available funds by no later than 7:00pm

Melbourne time on the Closing Date. Applicants should be aware that their own financial institution may implement early cut off times for processing BPAY® and EFT payments, and/or may impose daily limits. It is important that you make your payment in time and according to any limits so that payment for the full number of SPP Shares you wish to apply for is received on time and in full. Late application monies received after the specified time will not be accepted, unless the Company otherwise agrees. Neither the Company nor the Company's Share Registrar accepts any liability for lost, delayed or misdelivered application forms or application monies.

By making payment for SPP Shares under the SPP Offer by BPAY® or EFT, the applicant confirms that it is an Eligible Shareholder, certifies the matters set out in the application form, and agrees to be bound by the Constitution of the Company and by the terms and conditions set out in this Prospectus and the application form. Receipt by the Company's Share Registrar of payment for SPP Shares under the SPP Offer by BPAY® or EFT constitutes an irrevocable and unconditional acceptance of the SPP Offer in accordance with the terms and conditions set out in this Prospectus and the application form by the applicant.

Applications can only be made in one of the designated amounts set out in the application form. The Company reserves the right to waive this requirement, or to accept the application for the number of SPP Shares for which payment is received.

The Company reserves the right to reject an application received, and/or may refuse to issue SPP Shares under the SPP Offer, if the Company believes that acceptance of the application or issue of the shares may be contrary to any applicable Listing Rule or law, the terms of the ASIC Instrument to the extent they apply for the purposes of the ASX Listing Rules, or the terms and conditions of the SPP Offer.

The Company may amend or complete any application received, waive strict compliance with or vary any term or condition of the SPP Offer or resolve in any manner any anomaly, inconsistency, uncertainty or dispute if such amendment, waiver, variation or resolution would assist or permit the Company to issue and/or the applicant to receive SPP Shares under the SPP Offer, provided no amendment, waiver, variation or resolution shall result in the number of shares to be issued exceeding the number of shares which may be issued at the SPP Offer price represented by the application monies received. If payment of application monies is not honoured, the Company may at its sole discretion issue shares in response to the application and recover the application monies as a debt due or reject the application.

#### Effect of receipt

In addition to any acknowledgment noted or provided for herein or in the application form, receipt in the Company's Share Registrar's bank account of payment for SPP Shares under the SPP Offer by BPAY® or EFT:

- constitutes an irrevocable and unconditional acceptance of the SPP Offer in accordance with the terms and conditions set out in this Prospectus and the application form by the applicant;
- represents an acknowledgment that the applicant is lawfully permitted to accept the SPP Offer, to acquire the SPP Shares under the SPP Offer and to participate in the SPP Offer in accordance with the applicable laws in Australia and any other applicable laws in the jurisdiction in which the applicant and/or the beneficial owner of shares is situated;
- represents an acknowledgement that the applicant accepts the risk that the market price of the SPP Shares may fall between the date on which the Application is submitted and the date the SPP Shares are allocated and/or issued; and
- represents an acknowledgement by the applicant that the Company is not liable for any exercise of its or its Share Registrar's discretions provided for in the terms and conditions in this Prospectus or the application form.

### 6.3 **Maximum Applications**

Each Eligible Shareholder who is not a Custodian may only apply for up to \$30,000 of SPP Shares under the SPP Offer. If a registered holder of Shares receives more than one offer under the SPP Offer (for example, due to multiple registered holdings, including joint holdings), it may only apply for up to \$30,000 of shares in total.

Applicants who are not required to complete a Custodian Schedule (see further below) certify by making payment by BPAY® or EFT that the aggregate of the payment(s) paid by the applicant for:

- the parcel of SPP Shares indicated on the application form or by the BPAY® or EFT payment; and
- any other SPP Shares applied for by the applicant, or which the applicant has instructed a Custodian to acquire on its behalf under the SPP Offer or any other similar arrangement in the 12 months prior to making payment by BPAY® or EFT does not exceed A\$30,000.

Joint holders are counted as a single shareholder for the purposes of determining entitlements. A joint holder who receives more than one offer under the SPP Offer due to multiple registered holdings (including both sole and joint holdings) may only apply for up to \$30,000 of shares in total. Applications counted in determining whether the \$30,000 limit would be exceeded include applications through a Custodian or other nominee.

### 6.4 **Custodians**

A registered shareholder who is a Custodian holding existing shares on behalf of two or more beneficial holders as at the Record Date may acquire multiple parcels with an application price totalling up to \$30,000 (2,500,000 SPP Shares) on behalf of distinct beneficiaries, subject to compliance with the procedures and certification requirements set out in ASIC Instrument 2019/547. In addition, where requested by the Company, Custodians must provide evidence satisfactory to the Company of distinct holdings when applying for SPP Shares under the SPP Offer. Custodians must establish that the issue of the SPP Shares applied for on behalf of a beneficiary will not result in the beneficiary acquiring shares under this Offer (or under any other share purchase plan of the Company or similar arrangement) with an application price totalling more than \$30,000 in the 12-month period prior to an application under the SPP Offer.

Custodians must obtain a separate schedule (**Custodian Schedule**) from the Company or the Company's Share Registrar if they wish to accept multiple parcels on behalf of distinct beneficiaries. Payment of an amount by BPAY® or EFT using details on a personalised application form which accompanies this Prospectus may be treated by the Company as an acceptance by the holder named on the form and not as being made on behalf of distinct beneficiaries.

When requesting a Custodian Schedule from the Company or the Company's Share Registrar, Custodians must allow time for the dispatch, completion and return of the form by email. Requests should be made to the Share Registrar on 1300 554 474 (in Australia) or +61 1300 554 474 between 08:30am and 5:30pm Melbourne time. Requests made on or after the fifth business day before the Closing Date may not result in the Custodian Schedule and separate application form being received in sufficient time to allow for lodgement before 5:00pm Melbourne time on the Closing Date. If you are unsure whether you are a Custodian for the purposes of the SPP Offer, you should obtain independent legal advice.

### 6.5 **Excluded applicants**

A shareholder who alone or with its associates would obtain an interest in more than 20% of the issued voting shares of the Company may be ineligible to receive SPP Shares under the SPP Offer. The Company reserves the right to refuse an application if the applicant (alone or with its associates) would obtain an interest in more than 20% of the issued voting shares of the Company. The Company may amend any application received (including where the application is constituted by payment of application monies by BPAY® or EFT) so that the applicant's interest alone or with its associates is no more than 20% of the issued voting shares of the Company. In the event that an application is adjusted, the Company will refund to the applicant without interest the difference between the application monies received by the Company and application monies payable for the number of Shares actually issued to the applicant.

Only shareholders whose address in the Company's register of members is in Australia and New Zealand may apply. Regardless of their address in the register, applicants resident in countries outside Australia and New Zealand should consult their professional advisers as to whether any governmental or other consent are required or whether formalities need to be observed to enable them to apply for and receive SPP Shares.

Only applicants registered as a shareholder in the Company's register of members at 7:00pm Melbourne time on the Record Date may apply. The offer for SPP Shares under the SPP Offer is non-renounceable. Applications can only be accepted in the name printed on the application form.

Accordingly, this document and any application form do not constitute an offer of shares in any place in which, or to any person to whom, it would not be lawful to make such an offer. Payment of application monies and/or return of a Custodian Schedule will be taken by the Company to constitute a representation by the applicant or Custodian (as applicable) that there has been no breach of such requirements.

#### 6.6 **New Options**

An application for SPP Shares will be treated by the Company as an application for a corresponding number of New Options (on the basis of one New Option for every two SPP Shares subscribed for under the SPP Offer). By applying for SPP Shares, the applicant makes the same representations that will be relied on by the Company as contained elsewhere in this Section 6, including but not limited to in section 6.2, and the applicant expressly acknowledges that the issue of New Options is subject to receipt of shareholder approval and that the issue of SPP Shares is unconditional and may proceed even if shareholders do not approve issue of the New Options.

#### 6.7 **Brokerage**

No brokerage is payable by applicants in respect of applications or the issues of securities under Offers.

#### 6.8 **Further Information**

**If you have any questions about your Entitlement or the SPP Offer, please contact the Company by email to [rskeen@firstau.com](mailto:rskeen@firstau.com). Alternatively, contact your stockbroker or other professional adviser.**

The issue of any securities is expected to occur after the Offers have closed on or before the dates set out in the timetable on page 5 of this Prospectus (which date may change without notice). Thereafter statements of holdings relating to any issued SPP Shares will be despatched. It is the responsibility of recipients to determine their allocation prior to trading in securities. Recipients trading SPP Shares and/or New Options before they receive their statements do so at their own risk.

The Company may reject an application where payment of the application amount is not received or a cheque is not honoured, or without prejudice to its rights, issue SPP Shares in response to the application and recover outstanding application amount from the recipient. If your personalised application form is returned but is not completed correctly it may still be treated as a valid application for SPP Shares. The Directors' decision whether to treat a form as valid and how to construe, amend or complete the form is final. The Company accepts no responsibility for failure by your stockbroker or other third parties to carry out your instructions.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. Persons resident in countries outside Australia and New Zealand should consult their professional advisers as to whether governmental or other consent are required or whether formalities need to be observed for them to acquire SPP Shares. Return of an application form or payment will be taken by the Company to constitute a representation that there has been no breach of such requirements.

No account has been taken of the particular objectives, financial situation or needs of recipients of this Prospectus. Because of this, recipients of this Prospectus should have regard to their own objectives, financial situation and needs.

Recipients of this Prospectus should make their own independent investigations and assessment of the Company, its business, assets and liabilities, prospects and profits and losses, and the risks associated with investing in the Company. Independent expert advice should be sought before any decision is made to accept the SPP Offer, or to acquire SPP Shares or other securities of the Company.

## **7. Continuous Disclosure Obligations**

This Prospectus is issued by the Company in accordance with the provisions of the Corporations Act applicable to a prospectus for continuously quoted securities.

Section 713 of the Corporations Act enables a company to issue a special prospectus where the securities under that prospectus are continuously quoted securities within the meaning of the Corporations Act. This generally means that the relevant securities are in a class of securities, or options over a class of securities, that were quoted enhanced disclosure securities at all times during the 3 months before the date of this Prospectus and other requirements relating to the Company not being subject to various exemptions and orders under the Corporations Act within the last 12 months are met.

In summary, special prospectuses are required to contain information in relation to the effect of the offer of securities on the company and the rights and liabilities attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company. Accordingly, this Prospectus does not contain the same level of disclosure as a prospectus of an unlisted company or an initial public offering prospectus.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the date of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

For the purpose of satisfying section 713(5) of the Corporations Act a prospectus must incorporate information that:

- (a) has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules; and
- (b) is information that investors and their professional advisors would reasonably require for the purpose of making an informed assessment of:
  - the assets and liabilities, financial position and performance, profit and losses and prospects of the Company; and
  - the rights and liabilities attaching to the securities being offered.

The prospectus must contain this information only to the extent to which it is reasonable for investors and their professional advisors to expect to find such information in the prospectus. The Company is not aware of any matters that need to be disclosed under this section of the Corporations Act that have not been previously disclosed or which have not been set out in this Prospectus.

The Company operates an ongoing business and reports regularly on its activities. The Company may receive results of the light detection and ranging survey being undertaken at Snowstorm (refer announcement on 11 August 2021) during the open period of this Prospectus. The results of this survey are anticipated to provide data to facilitate more detailed mapping of the Snowstorm project area to assist the Company with targeting its exploration activities.

As a disclosing entity under the Corporations Act, the Company is subject to regular reporting and disclosure obligations. Copies of documents lodged with ASX and ASIC in relation to the Company may be obtained from or inspected by accessing the respective web sites.

Any person may request, and the Company will provide free of charge, a copy of each of the following documents during the acceptance period of this Prospectus:

- (a) The annual financial report of the Company for the financial year ended 31 December 2020 (released to ASX on 31 March 2021), being the most recent annual financial report of the Company before the lodgement of this Prospectus with ASIC; and
- (b) The Interim Financial Report of the Company for the half year ended 30 June 2021 (released to ASX on 10 September 2021); and
- (c) Any continuous disclosure notices given by the Company since the lodgement of the Annual Financial Report referred to in (b) above before lodgement of this Prospectus. Continuous disclosure notices given by the Company since the lodgement of the Annual Financial Report to the date of this Prospectus are listed in section 8 of this Prospectus.

Such documents are also available online from the ASX website at [www.asx.com.au](http://www.asx.com.au).

Prospective investors are advised to refer to ASX's website for updated releases about events or matters affecting the Company.

In making statements in this Prospectus, it is noted that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

## **9. Terms of securities offered**

### **9.1 SPP Shares**

SPP Shares will be fully paid ordinary shares in the capital of the Company, which will rank equally with, and will have the same voting and other rights as existing issued shares of the Company. The rights attaching to the

Company's shares are set out in the Company's constitution, the Listing Rules of ASX and the Corporations Act. The Company's constitution has been lodged with ASIC. The constitution contains provisions of the kind common for public companies in Australia and are taken to be included in this Prospectus by operation of Section 712 of the Corporations Act. Any person may request a copy of the constitution during the application period of the Prospectus, which the Company will provide free of charge.

## 9.2 New Options

the New Options (**Options** for the purposes of these terms) have the following terms:

- (a) Each Option entitles the holder to acquire one fully paid ordinary share (**Share**) in the capital of the Company. The Company proposes applying for official quotation (listing) of the Options.
- (b) The exercise price is \$0.02 (2 cents) (**Exercise Price**) per Option.
- (c) Each Option is exercisable at any time prior to 5:00pm Melbourne time on 1 July 2023 (**Expiry Date**).
- (d) Options may be exercised by providing written notice together with payment for the number of Shares in respect of which Options are exercised to the registered office of the Company.
- (e) Any Option that has not been exercised prior to the Expiry Date or cancelled in accordance with these terms shall automatically lapse.
- (f) An Option shall not be able to be exercised (and the Company will not be required to issue Shares upon such exercise) if it would be unlawful to do so.
- (g) The Exercise Price is payable in full upon exercise of Options.
- (h) Where an Option holder determines to exercise some, but not all, of their held Options, the total aggregate amount payable to exercise the Options must be a minimum of \$1,000.
- (i) All shares issued upon exercise of Options will rank pari passu in all respect with, and have the same terms as, the Company's then issued fully paid ordinary shares. The Company will apply for official quotation by ASX of all Shares issued upon exercise of Options, subject to any restriction obligations imposed by ASX and the Company being listed on ASX at the relevant time. The Options will not give any right to participate in dividends until shares are issued pursuant to the terms of the relevant Options.
- (j) There are no participation rights or entitlements inherent in the Options. Option holders are not entitled to participate in new issues of securities offers to shareholders without first exercising the Option. Prior to the Expiry Date and if required by the ASX Listing Rules, the Company will send notices to option holders in accordance with the time limits required by the ASX Listing Rules in respect of offers of securities made to shareholders.
- (k) In the event of any reconstruction (including consolidation, subdivision, reduction or return) of the issued capital of the Company prior to the Expiry Date, the number of Options or the exercise price of the Options or both shall be reconstructed in accordance with the ASX Listing Rules applying to a reorganisation of capital at the time of the reconstruction.
- (l) Options will otherwise have the terms as required by ASX and the ASX Listing Rules.

## 9.3 General

The Offers and any application concerning the issue of securities under this Prospectus shall be governed and construed in accordance with the laws in the State of Victoria, Australia.

## 10. Director's interests

### 10.1 Securities

The Directors' direct and indirect interests in securities of the Company as at the date of this Prospectus and the effect of the SPP Offer on the direct and indirect share holdings of Directors are set out in the following table. For illustrative purposes only, the following table shows the dilutive impact of the SPP Offer assuming that the Directors do not take up their entitlements under the SPP Offer. The Directors have not indicated as at the date of this Prospectus whether they will participate in the SPP Offer and, if they participate, their respective level of participation in the SPP Offer.

### 10.2 Remuneration & Payments to Directors

#### Fees and other remuneration

Directors are entitled to receive directors' fees and other remuneration (which may include consulting fees) from the Company in relation to services provided to the Company.

Details of the cash remuneration or agreed to be paid to Directors in the two years prior to the lodgement of this Prospectus (excluding GST if applicable) are as follows:

Director	October 2019 – September 2020	October 2020 – September 2021
Bryan Frost	\$250,000	\$250,000
Michael Quinert	\$40,000	\$43,334
Damon O'Meara	\$40,000	\$40,000
Richard Revelins	\$40,000	\$40,000

Director	October 2019 – September 2020	October 2020 – September 2021
Gavin England	\$0	\$0

**Notes to table:**

- *The remuneration set out above reflects cash paid to Directors only and includes base salaries paid in connection with director engagements, allowances for travel and compulsory contributions toward director nominated superannuation funds as required by Australian employment law.*
- *Gavin England does not receive remuneration for acting as a Director, however he does (directly or through associated entities) receive fees for geological consulting services provided to the Company. In the past two years, those fees have approximated \$330,395 in total.*
- *In addition, the Company notes that:*
  - *QR Lawyers Pty Ltd [ACN 137 818 985] (QR), an Australian company associated with Michael Quinert, has received, or is anticipated to be paid, fees and disbursements for providing legal services to the Company in respect of the Offers of approximately \$6,000 (plus GST). QR has provided, and is expected to continue to provide, legal services to the Company at typical commercial rates.*
  - *For completeness, the Company notes that:*
    - *Darontack Pty Ltd [ACN 007 031 085] (Darontack), an Australian company associated with Richard Revelins, receives fees in connection with corporate advisory services provided to the Company, those fees currently being approximately \$10,000 per month; and*
    - *Peregrine Corporate Limited [ACN 062 478 997] [AFSL 237858] (Peregrine), an Australian company associated with Bryan Frost and Richard Revelins, has received fees in connection with corporate advisory and capital raising services provided to the Company, however no fees have been paid to Peregrine in connection with the Offers. If Peregrine assists the Company with the placement of Shortfall it may receive a fee, although no such agreement exists as at the date of this Prospectus. Refer section 1.5.*

## **12. Overseas Investors**

### **12.1 New Zealand**

The SPP Shares and New Options are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This Prospectus is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

The offer of SPP Shares and New Options to shareholders in New Zealand is made in compliance with the relevant Australian laws.

### **12.2 Other**

This Prospectus and any application form do not constitute an offer in any jurisdiction in which, or to any persons to whom, it would not be lawful to make such an offer.

This Prospectus does not constitute an offer for securities in any place where, or to any person whom, it would be unlawful to make such an offer. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law, and persons outside Australia who comes into possession of this Prospectus should seek advice on, and observe any, such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. No action has been taken to register or qualify the SPP Shares or the SPP Offer or otherwise to permit a public offering of the securities in any jurisdiction outside Australia. The Company does, however, reserve the right (at its absolute discretion) to accept an application from a shareholder if it is satisfied that the making and acceptance of the application complies with the requirements of the relevant jurisdiction.

The Offers have not been, and will not be, registered under the US Securities Act and has not been made in the United States of America or to persons resident in the United States of America.

## **13. Privacy**

Personal information is collected on application forms by the Company and the Share Registrar for processing applications, maintaining registers of security holders, facilitating distribution payments and other corporate actions and communications. Acceptances might not be processed efficiently, or at all, if the information requested is not provided. Personal information about recipients may be disclosed to external service providers such as print or mail service providers as required or permitted by law. A recipient who would like details of their personal information held by the Company or its Share Registrar, or who would like to correct information that is incorrect or out of date, should contact the Company by email, by telephone or at the address shown in the Corporate Directory. In accordance with the Corporations Act, recipients may be sent material (including marketing material) in addition to general corporate communications. Recipients may elect not to receive marketing material by contacting the Share Registrar's Privacy Officer. Recipients can also request access to, or corrections of, personal information held by the Company by writing to the Company.
